to redistrictingcommittee

To whom it may concern,

As your group goes to redistrict the state, please consider giving the Metro East near St Louis its own district. At this time, Edwardsville, my hometown, is in a district with Central Illinois cities including Bloomington and Springfield. I do not feel well represented by this map. I know that no map is perfect, but dividing up the Metro East to make 3 "competitive" districts does give people the correct representation. I believe Rodney Davis is a good representative for those Central Illinois cities and areas. I would like someone who represents the Metro East and our issues in congress.
